

Monshati

The first national platform which provides monitoring, technical and administrative assistance in addition to facilitating access to finance to support and develop

Micro Enterprises

Very Small & Small-Sized Enterprises

Medium Enterprises

The platform aims at improving the MSMEs' activities through a network of partners from public and private sectors that are interested in the development of these enterprises, as they constitute the backbone of the Palestinian economy.

Our Services

Monshati provides a wide range of services through a virtual platform facilitated by a network of local partners, providing legal, financial, and technical support, in addition to facilitating the access to finance and investment opportunities. Which is inline with national strategic initiatives aimed at developing productive sectors, mainly micro, small, and medium-sized enterprises, to enhance their productivity and competitive capabilities, enabling them to effectively meet the demand of both local and international markets, to become more resilient and flexible in facing economic crises.

Access to Monitoring & Business Development Services:
